INDEX TO VOLUME 26

The index covers only the major papers, their authors, and principal headings. It does not include the abstracts. For the latter there is a separate index to authors on pages 135A through 143A. Minutes of business meetings, officers, and reports are entered only under American Society of Zoologists.

ABLE, KENNETH W. AND JAMES D. FELLEY, Geographical variation in *Fundulus heteroclitus*: Tests for concordance between egg and adult morphologies, 145–157.

Abstracts, see note above.
- Index of authors, annual meeting, Nashville, Tennessee, 135A–143A.
- Key word index, 144A–150A.
- Of annual meeting, Nashville, Tennessee, 1A–134A.

ALBERTS, BRUCE M., The function of the hereditary materials: Biological catalyses reflect the cell's evolutionary history, 781–796.

American Society of Zoologists,
- Committees, iv–v.
- Divisional officers, iv.
- Financial statement, viii–ix.
- Minutes of annual business meeting, vi–vii.
- Officers for 1986, iv–v.
- Presidents, iii.

American West, naturalists and natural history institutions of the, 293–384.

American Zoologist,
- Directions for authors, cover 1.
- Editorial board, cover 1.
- Statement of ownership, xii.
- Subscriptions, cover 1.

ANDERSON, GARY, see HART, NATHAN.

ARMSTRONG, DAVID M., Edward Royal Warren (1860–1942) and the development of Coloradan mammalogy, 363–370.

ATZ, JAMES W., *Fundulus heteroclitus* in the laboratory: A history, 111–120.

AYALA, FRANCISCO J., Whither mankind? The choice between a genetic twilight and a moral twilight, 895–905.

BASSETT, KENNETH, see SPOONER, BRIAN S. *et al.*

BASTIANI, MICHAEL J., see GOODMAN, COREY S. *et al.*

BAXTER, JOHN D., see SLATER, EMILY P. *et al.*

BEAUCHAMP, KATHERINE A., see PEARSE, JOHN S. *et al.*

BEIDLEMAN, RICHARD G., The 1820 Long expedition, 307–312.

BELOVSKY, GARY E., Generalist herbivore foraging and its role in competitive interactions, 51–69.

BENSON, KEITH R., The Young Naturalists' Society and natural history in the Northwest, 351–361.

BENSON, KEITH R., Concluding remarks: American natural history and biology in the nineteenth century, 381–384.

BETCHAKU, TEIICHI AND J. P. TRINKAUS, Programmed endocytosis during epiboly of *Fundulus heteroclitus*, 193–199.

BIOLOGY OF *FUNDULUS HETEROCLITUS*, THE, 107–288.
- Calcium regulation in *Fundulus heteroclitus*, 225–234.
- Competition and coexistence in *Fundulus*, 249–257.
- Consequences of genetic variation, 201–208.
- Evolutionary relationships of *Fundulus*, 121–130.
- *Fundulus* reproduction, 159–171.
- *Fundulus* trophic dynamics, 259–269.
- Gametogenesis in *Fundulus*, 173–192.
- Genetic variation in *Fundulus*, 131–144.
- History of *Fundulus* in the laboratory, 111–120.
- Immunity and stress in *Fundulus*, 271–282.
- Introduction, 109.
- Molecular ecology of *Fundulus* hemoglobin, 235–248.
- Pollution studies with *Fundulus*, 283–288.
- Programmed endocytosis, 193–199.
- Teleost chloride cell, 209–224.
- Variation in *Fundulus* egg and adult morphologies, 145–157.

BLACK, PAUL H., see TAYLOR, DOUGLAS D.

BOOK REVIEWS, 289–292; 489–491; 919–921; 1055–1057.

BOWEN-POPE, DANIEL F., Blood platelets contain factors involved in both normal and neoplastic growth, 519–522.

BRONNER-FRASER, MARIANNE, On the guidance of neural crest migration: Latex beads as probes of surface–substratum interactions, 555–558.

CARSON, DANIEL D., DANIEL P. ROSSIGNOL, JOSEPH T. LAU, AND WILLIAM J. LENNARZ, Regulation of glycoprotein synthesis during embryonic development of the sea urchin, 525–527.

CARSON, HAMPTON L., Patterns of inheritance, 797–809.

CASHON, ROBERT, see POWERS, DENNIS A. *et al.*

CAVALLI-SFORZA, LUIGI L., Cultural evolution, 845–855.

CELL SURFACE IN DEVELOPMENT AND CANCER, THE, 503–567.
- Blood platelet normal and neoplastic growth factors, 519–522.
- Branching morphogenesis, 545–547.
- Cell-cell interactions in *Dictyostelium* development, 549–551.
- Cell recognition during neuronal development in insect embryos, 553–554.
- Cell surface as cell activity regulator, 507–510.
- Cell traction, 559–560.
- Desmosomal adhesion in development, 535–540.
- Dual adhesive recognition systems, 561–565.
- Gap junctions in development, 529–533.

Growth control in capillary endothelium, 523.
Guidance of neural crest migration, 555–558.
Introduction, 505.
Reorganization of cytoarchitecture by TPA, 515–518.
Sea urchin glycoprotein synthesis, 525–527.
Shed plasma membrane fragments, 511–514.
Skeletal muscle morphogenesis: Cell matrix interactions, 541–543.
